

Accessibility Statement for RestIntelligence.com

Last Updated: July 10, 2026

Our Commitment to Accessibility

Rest Intelligence is committed to ensuring digital accessibility for people of all abilities, including those with disabilities. We are continually improving the user experience for everyone and applying the relevant accessibility standards to ensure we provide equal access to all users of our website.

Conformance Standard

We aim for RestIntelligence.com to conform to the **Web Content Accessibility Guidelines (WCAG) 2.1, Level AA**, published by the World Wide Web Consortium (W3C). These guidelines explain how to make web content more accessible for people with disabilities and more user-friendly for everyone.

Our efforts are also guided by the accessibility standards referenced under the **Americans with Disabilities Act (ADA)**, Title III, as they apply to places of public accommodation offering goods and services online.

Measures We Take to Support Accessibility

Rest Intelligence takes the following measures to ensure accessibility of RestIntelligence.com:

- Including accessibility as part of our ongoing site maintenance and design process
- Providing alternative text (alt text) for meaningful images
- Ensuring sufficient color contrast between text and background
- Structuring content with proper heading hierarchy for screen reader navigation
- Ensuring the site is navigable using a keyboard alone
- Using descriptive, meaningful link text
- Designing forms with clear labels and error identification
- Periodically testing pages with accessibility evaluation tools and, where feasible, assistive technologies

Known Limitations

Despite our best efforts, some content or features on RestIntelligence.com may not yet be fully accessible. This can include:

- Third-party content, plugins, widgets, or embedded tools (such as affiliate links, ad networks, or comparison widgets) that are hosted or controlled by outside parties
- Older content or documents that have not yet been updated to current standards

- PDFs or other downloadable files that may not be fully tagged for accessibility

We are actively working to identify and remediate these issues as they are discovered.

Affiliate & Third-Party Content Disclosure

RestIntelligence.com contains affiliate links and third-party embedded content (such as retailer widgets, comparison tables, or advertising). Because this content is generated or hosted by external parties, we cannot always guarantee its accessibility. We encourage those third parties to meet applicable accessibility standards, and we will address issues within our control as quickly as possible when they are brought to our attention.

Feedback and Contact Information

We welcome your feedback on the accessibility of RestIntelligence.com. If you encounter accessibility barriers, please let us know at info@restintelligence.com

Please include the specific web page or feature and a description of the issue you encountered. We try to respond to accessibility feedback within [insert response time, e.g., "5 business days"] and to propose a solution when possible.

Enforcement and Formal Complaints

If you are not satisfied with our response, you may have the right to file a complaint with the U.S. Department of Justice or pursue other remedies available under the ADA and related state laws. This statement does not waive any rights you may have under applicable accessibility laws.

Ongoing Efforts

Accessibility is an ongoing effort. We will continue to monitor RestIntelligence.com, incorporate accessibility feedback, and update our practices as standards, technologies, and best practices evolve.
